EXILED GENERAL MAY SPEND LAST DAYS IN MEXICO

General Luis Terrazas Notified His Estate Will Be Returned.

El Paso, Texas, April 16.—General Luis Terrazas, the Octogenarian exile may be permitted to return to Mexico to spend his remaining years on the vast Terrazas estate, which he acquired prior to the Mexican revolution and which was confiscated by the constitutional government. The estate was valued at \$5,000,000.

Notice has been received by General Terrazas that his properties in the city of Chihuahua had been restored to him without the payment of delinquent taxes, his business representatives here announced.

The estate includes Banco Minor building, Quinta Carolina, the famous summer home of General Terrazas in the suburbs of Chihuahua City, the beautiful marble palace which was his town house and many stores, residences and an interest in the electric light and power plant. His vast ranch holdings in the state of Chihuahua together with the timber tracts, mining properties and other interests outside of the capital were not ordered returned at this time but are expected to be soon.

General Terrazas will be 90 years old July 22nd. He recently suffered a stroke of paralysis shortly preceding the death of his wife.

HELPFUL HINTS FOR FARMERS

Do Not Plant Cotton On Ridges.

Planting cotton on ridges is objectionable in spite of the fact that most of the cotton in the South is planted in this way. According to experiments conducted by the Arkansas Experiment Station, it is true that ridges warm up more rapidly in the spring but they cause the soil to dry out rapidly in dry weather and high ridges interfere with the proper use of the horse-drawn cultivating instruments. The latter condition makes necessary excessive hoeing. These objections may be largely overcome by dragging the beds down to the proper height with a section harrow or other implements just before planting. Only a low ridge is necessary on ordinary land. A good "water" furrow between rows is sufficient and on sandy, well drained land, level planting may be safely practiced if the seed are not covered too deeply.

Forage for Hogs.
In order to have plenty of green feed for hogs, plant soy beans, cowpeas, sorghum or peanuts any time before the first of July, planting each crop in such a way as to have plenty of feed at all times. Plant soy beans at the rate of 1-2 bushels in rows or 1-2 bushels broadcast. These will mature in 90 to 120 days. Cowpeas seeded at the same rate in 75 to 90 days. Sorghum planted at the rate of 1-2 to 2 bushels broadcast will mature in from 60 to 90 days and it is sufficient to plant 1-2 bushels of unshelled peanuts to the acre. Peanuts can be counted upon in 90 to 120 days.

Grow Silage Crops.
Corn is a staple crop for the silo. Any variety that will produce a good yield of ears, as well as stalks, is good silage corn, and may be planted a little thicker in the row than usual. Sorghum preferably ripe may be used for silage alone, or with corn. It does not actually improve the silage, but the sugar in the sorghum serves to add variety to its feed. Cowpeas added to corn will improve the feeding value of silage.

Director Returns.
W. C. Lasseter, Director of the Agricultural Extension Division, has just returned from Washington, D. C. where he spent the past ten days in conference with the Directors of other states and the U. S. Department of Agriculture. He has recently worked out a budget for the Arkansas Division for the next biennial period.

Cotton Specialist Leaves.
W. E. Ayers, Cotton Specialist of the Experiment Station, University of Arkansas, since May 1st, 1916, has resigned and will become plant breeder for the Ferguson Seed Farms, Sherman, Texas. Since coming to Arkansas, Mr. Ayers had many experiments conducted at the Station, six bulletins and six circulars having been published. Circular No. 47 on "The Best Time to Pick Cotton," Bulletin 159 on "Varieties of Cotton" and Bulletin on Cultural Experiments with Cotton, are just off the press and should be in every library of every cotton grower in Arkansas. The experiments written up in Bulletin No. 161 have attracted nation-wide attention since among other things it is shown that cotton can be produced profitably without the use of the hoe.

Teaches Boys To Cook.
Fourteen boys from 9 to 15 years of age are learning practical cooking under the direction of Mrs. Ruth Peck McLeod, of the Extension Division at Little Rock. These boys who are classed as truants, are looked after by the instructors of the Detention Home in Little Rock and are said to be making remarkable progress and are taking keen interest in their work.

Former Worker Marries.
Earl Kilpatrick, former extension agronomist with the University of Arkansas, and Miss Ruth McCain, daughter of W. H. McCain of Marianna, were recently married. Mr. Kilpatrick was just lately discharged from the naval aviation service. He will farm near Cabot.

SET EMPLOYMENT STANDARDS FOR THEIR OWN SEX

MISS MARY VAN KLEECK (ABOVE) AND MISS MELINDA SCOTT.

Under the direction of the U. S. Department of Labor, two women, Miss Mary Van Kleeck and Miss Melinda Scott, have formulated a program of labor standards for women in industry which will form the basis of private and public programs for the aid of the girl who works.

Miss Van Kleeck is director of the women in industry service of the Department of Labor, and Miss Scott is attached to the woman's division of the United States

COTTON MEN MAY PURCHASE SHOPS

Memphis, Tenn., April 15.—Tentative plans of a group of local business men for organization of \$1,000,000 corporation to purchase this from the government as suggested by E. N. Hurley, head of the shipping board for exportation of cotton, cottonseed products and lumber were announced here tonight by Joseph Newburger, Memphis capitalist. They are awaiting Mr. Hurley's visit to Memphis before completing organization, Mr. Newburger said.

Cut This Out—It Is Worth Money.
DON'T MISS THIS. Cut out this slip and enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup. Foley Kidney Pills and Foley Cathartic Tablets. Mann's Pharmacy. Adv.

BANDITS ROB BANK IN BROAD DAYLIGHT

Muskogee, Okla., April 15.—Three men drove up to the State Bank of Stratford, Oklahoma, at eight o'clock this morning, compelled cashier Allen Snoddy to unlock the safe, imprisoned him in the vault and drove away with \$8,000 of the current currency and \$14,000 worth of Liberty bonds. It was an hour later when the day's first customer entered the bank that the alarm of the robbery was given. None of the bandits were masked and so deliberately did they work, that people looking in through the bank's windows did not suspect anything was wrong. No clue to the identity of the robbers had been found early tonight.

COST

We will take a Harley-Davidson for example. The 1919-Twin cylinder, three speed, 16-horse power motor, magneto equipped Machine is \$350.00
Electric Equipped \$370.00
Pleasure Side Car \$410.00
Two-step van \$200.00

F. O. B. Milwaukee.
This if you will consider is the price on the best outfit you can buy (war tax is not as much as it would be on a \$2,000.00 car). Excelsior Motorcycles and side cars same price as above at Chicago.
The Lightweight CLEVELAND is \$325.00 at Cleveland. The Cleveland was the only light machine used by the government during the war. Please remember these prices for further information or write.

BLACK-DRAUGHT CLEANS THE LIVER

Enthusiastic Texan Tells of Bad Fix He Was in and How He Got Out by Using Black-Draught Liver Medicine.

Holland, Texas.—Mr. J. N. Messer, who lives a short distance from here out in the country, says: "Black-Draught is without doubt the best liver medicine made. I do not hesitate to say it will do all it is recommended to do and more."

I am strong and healthy, but we all need a little active medicine once in a while, and Black-Draught is good enough for me. It does the work well and cleans the liver, carrying away bile, the easiest of any purgative, I have ever seen.

Once, some years ago, I had slow fever and my stomach was in a bad fix, and Black-Draught gave me relief and helped me a wonderful sight. It cured me of indigestion, and the bad feeling after eating. I keep it for my family, they use it and have for years, and too, it saves doctor bills and is not expensive.

A stitch in time saves nine, and most sickness is caused by a bad liver. A few doses of Black-Draught fixes that, and I don't see why people don't use it, and they would see as I have, what a help it would be. Ask your druggist for Thedford's Black-Draught.

Do your shopping before leaving home, by making your selections from the advertisements in The Graphic. Descriptions, prices and other information you want to know are found in the invitations of these advertisers who try to make shopping easy for you. 4-16-1f

NOW Is The Time To Buy Your Field Seeds
